

Z+2 Pro (Gen 3)

Extension Kit for two Additional Monitors

Z+2 Pro (Gen 3)

Setup Extension

Flexible Alignment

Easy Installation

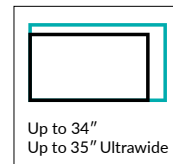

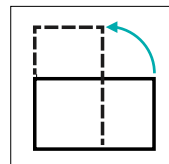

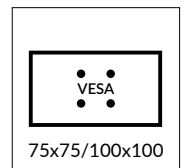

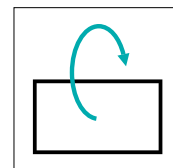

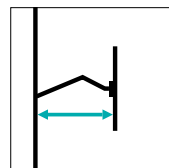

Cable Management

The combination of flexibility and ergonomics already make ARCTIC monitor arms a great choice for working or gaming; get even more out of your ARCTIC monitor arm with the Z+2 Pro (Gen 3). The extension kit is compatible with most monitor arms of ARCTIC's Pro and 3D series and expands the existing setup by two monitors at one go. This means you can instantly add more viewing area and flexibility to an existing setup at the turn of a hand. Thanks to VESA standards 75x75 and 100x100, the Z+2 Pro (Gen 3) is compatible with most flat panel displays and carries up to 30 kg with ease.

Extension Kit for two Additional Monitors

- Compatible with Z1 Pro (Gen2+3), Z2 Pro (Gen2+3), Z3 Pro (Gen 3), Z1-3D, Z1-3D (Gen 3), Z2-3D, Z2-3D (Gen 3)
- Enables to install two additional monitors
- Flexibility in the alignment
- Can be used in landscape and portrait format
- Integrated cable management

Upgrade Your Monitor Setup

With the Z+2 Pro (Gen 3) you get the perfect upgrade to top your monitor setup. Whether you currently use on one, two or three monitors, the extension kit is easily attached to the existent mount and extends the viewing area.

Adjusted All Around

Individual construction, individual adjustability: The ball joint design of the mounting heads offers increased flexibility for 360° rotation, 180° swivel and +/-15° tilt.

Excellent Compatibility

Thanks to VESA standards 75x75 and 100x100, the Z+2 Pro (Gen 3) is compatible with most flat panel displays. It carries loads up to 30 kg and supports classic monitors up to 34 inches, ultra wide monitors up to 35 inches.

Set Up Fast and Simple

Integrate two additional monitors into the present system, and that at the turn of a hand: in a few steps the dual threaded pole of the Z+2 Pro (Gen 3) is installed and the monitor arms are realigned.
